-TRADE Business to-day was only moderately active, but the order of trade was brisa, as usual. The holidays are never particallarly noted for animation, though the two or three weeks preceeding are generally the busiest of the year. People prefer spending the week between Christmas and sides, and this year is no exception to the rule. There was no packet from above since our last, and prices are steady on all staple goods, with some improvement possibly on bulk meats. A late St. Louis provision circular says: "The probabilities are that the receipts in January and February of this year will be much larger country may feeding is rapidly progressing. The receipts of hogs last year increased gradually from the 1st of March until during the middle of June, they ranged from 30,000 to 50,000 per week. The whole number received from the 1st H. A. PARTEE, President, of March to the 1st of October was 842.

1. S. CLARK, Secretary and Treasurer. ceipts this year through the summer will be much heavier than last, as most intelligent drovers report they have never a C. Rours, LL.D.; P. S. Jones, S. C. Rours, W. D. Andrews, dela known so many young hogs through the country as there are at present, and farmers never had so great an inducement to feed them. Several parties at the present time are estimating the probable ex- a.vaccano, E.vaccano, A.B.vaccano tent of the packing, but estimates just now are all 'moon-shine.' To prove how very reliable they must be, the estimates of two authorities differ nearly 300,000 head. We have no desire to risk our rep- WINES, LIQUORS, CIGARS, utation on any surmises. Packing will continue as long as hogs can be found, and the probability is that before the 324 Front Street. Memphis. Tenn. season closes packers will be much more tired of paying for, than the farmers of furnishing them. The foreign demand hardly amounts to anything, and will scarcely be increased at present prices. The probabilities are it will be supplied almost exclusively from spring and summer hogs."
